## Housing and Residence Life

Housing and Residence Life provides a living/learning community environment that complements the University's educational process. More than 3,000 students are housed in seven residence halls and the Greek Village Complex. Co-ed housing options are for students who live on campus. Traditional residence halls have separate areas for men and women, typically separated by units. Residence halls provide students with the convenience of being close to campus life and its activities as well as comfortable and attractive surroundings. On campus living provides community living experience, which fosters the development of disciplined minds, social conscientiousness, and responsibility for governing hall affairs. In addition, the department offers a variety of social, educational, and recreational programs that promote individual growth and development.

## Research and Sponsored Projects

Facilities and Administrative costs (F&A)-formerly Indirect costs (IDCs), are general operating costs incurred by the University in support of sponsored research, public service, and instruction. The Office of Research and Sponsored Projects (ORSP) distributes the IDCs received in accordance with Office of Management and Budget (OMB Circular A-21 [http:// www.whitehouse.gov/omb/circulars\\_a021\\_2004](http://www.whitehouse.gov/omb/circulars_a021_2004)).

In fiscal year 2013 the University of West Georgia was reimbursed \$187,530 in Indirect Costs incurred by sponsored grants and contracts. Of these recovered costs, a total of \$13,947 was returned to the Project Investigators (PI's) to further their individual research efforts. In addition, \$13,697 was returned to the Colleges and \$9,863 to the Departments to further research within their units.

## Continuing Education and Public Services

The Department of Continuing Education and Public Services identifies and provides non-credit educational opportunities to the public that will enhance the quality of life and provide training support to business and industry that will serve as a catalyst for economic growth. The CEU is defined as ten contact hours of participation in a qualified continuing education program and is recognized as the national standard for measuring an individual's participation in a non-credit program. Category I programs qualifying for CEU credit are designed to enhance occupational skills, and individual permanent transcripts are maintained. Category II courses designed primarily for personal enrichment and are social, cultural, or recreational in nature and no individual permanent transcripts are maintained.
