Office Hrs: Monday and Wednesday: 11:00 AM – 12:30; and by appointment

Catalog Description:

Basic structure of accounting; accounting cycle for a service and a merchandising concern; notes, deferrals, and accruals; receivables; inventory, and plant assets; accounting systems and concepts; liabilities; equities; and investments.

Required Background or Experience:

- Prerequisites: G.P.A. of 2.0
- General Education (Core) Contribution

Expected Outcomes:

The overall objective for this course is for you to learn about accounting as an information development and communication function that supports economic decision making. To this end, upon completion of the course you should:

- have a broad view of accounting's role in satisfying society's need for information and its function in business, in government, in other organizations, and in public accounting. (LG5)
- gain an overview of the accounting profession, encompassing its history, its ethics, its public responsibilities, and its international dimensions as well as an appreciation of the role of auditing in enhancing the credibility of publicly reported information. (LG5)
- understand the basic features of accounting and reporting by organizations, including the principles underlying the integrity and effectiveness of accounting information systems. (LG4, LG5, LG7)
- understand fundamental accounting concepts in addition to the elements of financial statements. These concepts include accountability, estimation, accounting judgment, the qualitative characteristics of accounting information, choice in accounting measurement, and the ethics of reporting. (LG5, LG7, LG8)
- understand that some accounting systems are more effective than others in given circumstances and that the decision usefulness of information produced by an accounting system depends on its design and choices among information capturing, analysis, and reporting options. (LG4, LG7)

- gain an appreciation that the accounting discipline is the focus of constructive debate and intensive rethinking caused by economic and technological change, and will continue to evolve in the future. (LG4, LG5)
- gain an appreciation of ethical issues through the coverage of ethics problems in the text. (LG5)

Expanded Description of the Course and Instructional Methods:

- Description of the Course: The first course in accounting is very important to all who take it, whether they plan to become professional accountants or to use accounting information in non-accounting careers. We hope the course meets your educational needs, engenders accurate perception of the broad role of accounting in modern economies, and assists you in making well-informed career choices.
- Instructional Methods:
 - Lecture and Demonstration/Performance. The instructor will stress certain points and elaborate on others. You should not expect the instructor's lecture to substitute for individual reading of the assigned text materials or to cover all the chapter material. In addition, certain problems and exercises will be worked on the whiteboard or electronic

- **READING ASSIGNMENTS:** Reading of the assigned chapters is extremely important for success in this course. Each chapter should be read at least twice. If you have never done this, you will be surprised at how much clearer concepts become with an additional reading (or readings). You also may wish to do an outline or make study notes during your second reading.
 - **ASSIGNMENTS:** This consists of textbook problems assigned to be done online outside of class. Completion and understanding of the assignments is very important for success in the course and is also 10% of the course grade.

- **ATTENDANCE:** Class attendance is very important for your understanding of the subject matter. The instructor may elect to take absences into account when determining final grade assignments for those students with borderline grades.

- **ADDITIONAL HELP:** You are urged to make use of your instructor's office hours. These hours are set aside for your benefit and you are welcome to come in at any time during these posted hours. If you are unable to get to the office during the posted hours, see your instructor for an appointment.

- **CAMPUS CARRY AT UWG:** Information concerning Georgia House Bill 280 may be found at: [Campus Carry https://www.westga.edu/police/campus-carry.php](https://www.westga.edu/police/campus-carry.php)

- **CLASS BEHAVIOR:**
 - The instructor retains the right to drop from class any student(s) for disruptive behavior—no warning given.
 - You are expected to attend class and be on time. After three absences (3) your instructor may elect to drop you from the class. **NOTE:** Withdrawal from class is not automatic. A student who desires to withdraw is responsible for processing the withdrawal.
 - You are expected to turn off your cell phones prior to entering the classroom.
 - Academic dishonesty will result in dismissal from the class with a grade of F.

Instructions for Examinations:

Materials needed for the examination:

- Scantron (furnished; do not bend.)
- Number 2 pencils (Pens may be used in addition to the pencils, but the pencils are needed for filling out the scantron form.)
- Non-smudge eraser (Before coming to the exam, test the eraser to be sure that it erases cleanly without smudges.)
- Basic four-function calculator (Basic functions are add, subtract, divide, multiply, square root, and percent. MC, MR, M+ and M - are okay also.) **CALCULATORS WITH MORE THAN THE BASIC FUNCTIONS ARE NOT ALLOWED.** Note: it is now the policy of the department that basic-function calculators will be furnished for exams.

Examination Procedures:

- Only the above-mentioned materials and the examination copy are on the desktop. Scratch paper is not used. Calculations and notations are written on the exam. Examination Copies Are Not Taken from the Room.
- Cell phones are turned off prior to entering the classroom. Note: use of any mobile device during an exam will be regarded as cheating.
- Exams are handed out face down. Exams are turned over when the instructor says to do so. (Everyone will start at the same time.)
- When the instructor says to do so, the exam is turned over and:
 - The number that is in the upper right-hand corner of your exam is written on the scantron form just above the space for the name.
 - Your name is written on the scantron form and on the front page of the examination.
- Calculators are not shared during the examination.
- Students are responsible for turning in a scantron form free of smudge marks. No credit will be given for correct answers that are marked as incorrect because of smudge marks as a result of changed answers.
- The answers marked on the scantron form are the ones graded. No credit will be given for answers marked correctly on the examination copy which are marked incorrectly on the scantron form.
- Reminder: Budget your time.

Procedures for Review of Returned Exams:

- The only items on the desk during the review of the returned exam are the examination copy and the returned scantron form. No other materials are allowed on the desk. Suggestion: Complete documentation of calculations as the examination is being taken will be helpful for the review of the examination.
- EXAMINATION COPIES ARE NOT TAKEN FROM THE ROOM. Before leaving the room, the examination copy must be brought to the instructor. This is applicable even if the person leaving will return. Anyone who leaves the room with the examination copy will be assigned a zero grade for the examination.
- The instructor will come by each desk to collect the examination copies after the review is complete. Please remain in your seat as the exam copies are being collected.

MY.WESTGA.EDU:

The policy of the University of West Georgia is that each student is responsible for checking his/her my.westga.edu e-mail account on a regular basis.

EXTRA CREDIT:

There is no extra credit in this course beyond that explicitly stated in the course syllabus.

WORK FROM OTHER COURSES:

Work submitted for credit in other courses will not be accepted for credit in this course.

Supplemental Instruction

Supplemental Instruction (SI) study sessions are offered for this course. SI sessions meet two times a week, throughout the semester. Supplemental Instruction is an academic assistance program which provides peer-led group study sessions to assist students in traditionally difficult courses. SI sessions are led by a SI leader who has already mastered the course material and has been trained to facilitate group sessions where students can meet to improve their understanding of course material, review and discuss important concepts, develop study strategies and prepare for exams. SI is for everyone, and open to all students enrolled in this class; not just those students who are struggling. Attendance at SI sessions is voluntary. Students, who attend SI sessions weekly, typically earn higher final course and exam grades than students who do not participate in SI. Please bring your lecture notes, books, and questions with you. The time and location of your SI session will be announced in class.
