

Chemistry 1212
Principles of Chemistry II
Fall 2019

Instructor: Dr. Martin R. McPhail
Office: TLC 2129 **Lab:** TLC 2108
Phone #: (678) 839-6019 (Office)
(678) 839-6550 (Chem. Dept.)

Office Hours: M//W/F 9:00 am – 11:00 am
Tu/Th 1:30 pm – 3:30 pm
E-mail: mmcphail@westga.edu

Course Information

Class: Chem 1212 (06 – 80344; 07 – 80345; 09 – 81885; 10 – 82156)
Meeting Times: Lecture – Tu/Th 11:00 am – 12:15 pm (Sections 06, 07, 09, 10)
Workshop – W 1:00 pm – 2:30 pm (Section 06, 07)
Th 9:00 am – 10:30 am (Sections 09, 10)

Room: TLC 1301 (Lecture)

Modified Mastering Chemistry Course ID: mcphail00709

Course Description

Second course in a two-semester sequence covering the fundamental principles and applications of chemistry for science majors. Topics to be covered include chemical bonding, properties of solids, liquids and gases, solutions, equilibria, acids and bases, solubility, thermodynamics, kinetics, and electricity.

Required Materials:

Chemistry: Structure and Properties (2nd or 1st ed.) by Nivaldo J. Tro
Registration Code for Modified Mastering Chemistry program (included with new textbooks or available at www.pearsonmylabandmastering.com/northamerica/)
iClicker (available at the bookstore) either Gen 1 or 2

Learning Outcomes

1. *Foundational Knowledge:* Students will be able to use chemical terminology to describe chemical equilibria, kinetics, and phase behavior.
2. *Foundational Knowledge:* Students will be able to apply logical and mathematical reasoning skills to interpret provided chemical information.
3. *Application:* Students will apply their knowledge and thinking skills to interpret chemical observations.
4. *Integration/Caring:* Students will draw connections from course material to topics in other fields of study and modern scientific issues.
5. *Learning to Learn:* Students will develop methods for structuring their study habits, assess personal strengths/weaknesses, become a member of a learning team, and actively engage with text-based materials.

Course Assessment

Students' progress towards mastery of the learning outcomes will be tracked and assessed via:

Workshop (10%)

Workshops are a key component of the department's strategy to facilitate cooperative learning through peer-led, group work. Developing the skills to work and learn as a part of a team are fundamental to success at the undergraduate, graduate, and professional levels. Your attendance, participation, and performance in workshop will contribute towards your final grade.

Homework (10%)

Homework will be assigned and graded through the Pearson Modified Mastering Chemistry program. There will be a homework assignment posted **after each class period** and due **before the start of the following class**. This assignment may cover advanced application of the concepts covered in the previous lecture and basic ideas for the next lecture, so you will need to review material covered in the previous lecture as well read the sections from the text that will be covered in the next lecture. **10% credit is deducted per day late on any assignment.**

Clicker Questions (10%)

Questions will be posed at various points during lecture to enable interactive feedback between students and instructor. Responses will be tracked and logged through the iClicker system, so it is necessary for you to bring a functioning iClicker to every class period. **Using an iClicker registered to another student is cheating.** Textbook sections listed on the schedule below should be read *prior* to class to prepare for potential questions.

Mid-term Exams (12.5% each; 50% total)

Four mid-term exams will be given in-class over the course of the semester. These exams will not be comprehensive; each exam will cover material covered in lecture since the previous exam. **Non-graphing calculators will be permitted** on each exam, but notes, reference materials, and devices with additional app functionality are not. A periodic table and sheet of equations will be provided with each exam. Sharing of calculators is prohibited.

Final Exam (20%)

The final will be the American Chemical Society standardized test, which will cover **both Chemistry 1211 and 1212**. **Graphing/programmable calculators are not allowed on the final exam.** The Final Exam score will replace the single lowest midterm exam score if the final exam score is higher.

Grading Scale

A	90 – 100
B	80 – 89
C	70 – 79
D	60 – 69
F	0 – 59

Grade Calculation Formula

$$\begin{aligned} \text{Grade \%} = & [(\text{WS \%}) * 0.1] + [(\text{HW \%}) * 0.1] + [(\text{Clicker \%}) * 0.1] \\ & + [(\text{Exam 1}) * 0.125] + [(\text{Exam 2}) * 0.125] + [(\text{Exam 3}) * 0.125] \\ & + [(\text{Exam 4}) * 0.125] + [(\text{Final Exam}) * 0.2] \end{aligned}$$

Course Policies and Information

‘Curving’ Policy

In the event that the average exam grade falls below 75%, exam grades will be adjusted or ‘curved’ using a linear scale to ensure an average exam grade of 75%.

Extra-Credit Policy

No extra credit is accepted for this course.

Make-up Policy

Clicker Questions and Homework: No make-up clicker or homework assignment will be given. If an emergency forces a student to miss a day’s clicker question or homework assignment, that assignment will be waived **only if official documentation is presented**. A maximum of **two exemptions total** will be allowed.

Exams: Make-up exams will only be considered for cases of scheduling conflicts or emergencies where official documentation is provided. In the case of a **scheduling conflict**, the student must report the conflict to the instructor **no later than one week prior** to the date of the exam. In the case of a **documented emergency**, the student should contact the instructor within **24 hours** of the exam. Make-up exams need to be scheduled before the lecture that follows the original exam. For example, Exam 1 is scheduled for September 5, so a make-up would have to be scheduled before the following lecture on September 10.

Student Conduct

Students are obligated to abide by conduct guidelines as described in the university catalog. Respect and courtesy of all students while in the classroom is required. The following are also mandatory:

1. Any disruptive behavior will result in your expulsion from the room. If disruptive behavior persists you will receive a minimum of a one letter-grade deduction from your overall grade as well as possible additional action depending on the severity of the behavior.
2. All electronic devices must be silenced during lecture. Calls may only be answered in the case of emergencies by stepping out into the hall. **Laptops and tablets are permitted**, but if your use of these devices becomes disruptive their use will be disallowed for the remainder of the semester.

Please feel free to contact me with any questions regarding the above. Following “common sense” behavior should prevent any of the above problems. Failure to adhere to conduct guidelines could result in *dismissal from class, a deduction from your final course grade, as well as further disciplinary action*.

University Policies and Academic Support

Please review the Common Language for all university course syllabi at the address:

https://www.westga.edu/administration/vpaa/assets/docs/faculty-resources/common_language_for_course_syllabi_v2.pdf

This document contains important information regarding Academic Support, Online Courses, Honor Code, Email Policy, Credit Hour Policy, and HB 280 (Campus Carry).

Academic Honesty

Any form of academic dishonesty—including but not limited to cheating or plagiarism—will result in a failing grade on the relevant assignment as well as possible additional action. Please be familiar with the definitions of academic dishonesty and plagiarism as laid out in the Student Handbook, which can be found at the link: <http://www.westga.edu/handbook/>

Disabilities Act / Accessibility for the Course

If you are a student with a disability as defined under the Americans with Disabilities Act and require assistance or support services, please notify me and provide me with a copy of your packet from Student Services. The university will provide you with resources for any audio/visual needs that you may have with the learning management system or course content.

It is critical that you contact UWG Accessibility Services immediately to find out what accommodations are necessary so we can work together to facilitate your success in this class. Please consult the UWG Accessibility Services site <http://www.westga.edu/accessibility> or call (678) 839-6428 for more details regarding accessibility for this course.

Note on Syllabus Modifications

I reserve the right to modify this syllabus at any time during the course of the term, particularly with regards to course schedule. Students will be notified of all syllabus modifications. In a case where a substantial modification is required, I will reissue a revised syllabus.

Tentative Schedule

Readings are listed for the 1st edition (1E) and 2nd edition (2E) of Tro.

Week	Tuesday	Thursday
1		August 15 2E: 11.2 - 11.3 1E: 12.2 – 12.3 Molecular Structure Review Intermolecular Forces
2	August 20 2E: 11.4 - 11.5 1E: 12.4 - 12.5 Surface Tension, Viscosity, Capillary Action Vaporization and Boiling	August 22 2E: 11.6, 11.7 1E: 12.6, 12.7 Sublimation and Fusion Heating Curves
3	August 27 2E: 11.8, 13.2 - 13.4 1E: 13.2, 14.2 – 14.4 Phase Diagrams Solution Energetics & Equilibria	August 29 2E: 13.5, 13.6 1E: 14.5, 14.6 Concentration Units Colligative Properties
4	September 3 2E: 13.7 1E: 14.7 Colligative Properties Continued	September 5 Exam 1
5	September 10 2E: 14.2 - 14.4 1E: 15.2 – 15.4 Collision Theory Definition of Reaction Rates Differential Rate Laws	September 12 2E: 14.4 - 14.5 1E: 15.4 - 15.5 Differential Rate Laws continued Integrated Rate Laws & Half-Lives
6	September 17 2E: 14.6 - 14.8 1E: 15.6 – 15.8 Arrhenius Theory Reaction Mechanisms & Catalysis	September 19 2E: 15.2 - 15.5 1E: 16.2 – 16.5 Dynamic Equilibria K_c & K_p Heterogeneous Equilibria
7	September 24 2E: 15.6 - 15.8 1E: 16.6 - 16.8 Reaction Quotients Calculating Equilibrium []s	September 26 2E: 15.8, 15.9 1E: 16.8, 16.9 Calculating Equilibrium []s cont'd Le Châtelier's Principle
8	October 1 Exam 2	October 3 NO CLASSES
9	October 8 2E: 16.2 - 16.3, 16.6 1E: 17.2 - 17.3, 17.6 Acid and Base Definitions K_w , pH, and pOH <i>Last day to Withdraw is October 9</i>	October 10 2E: 16.4 - 16.5, 16.7 - 16.8 1E: 17.4 - 17.5, 17.7 - 17.8 K_a , and K_b Acid/Base Strength Strong Acid & Base Calculations

10	October 15 2E: 16.7, 16.8 1E: 17.7, 17.8 Weak Acid & Base Calculations	October 17 2E: 16.9, 16.11 1E: 17.9, 17.11 pH of Salt Solutions Lewis Acids and Bases
11	October 22 2E: 17.2, 17.3 1E: 18.2, 18.3 Buffers Henderson-Hasselbalch	October 24 2E: 17.4 1E: 18.4 Acid/Base Titrations
12	October 29 2E: 17.5 - 17.7 1E: 18.5 - 18.7 Solubility Product Formation Constant	October 31 Exam 3
13	November 5 2E: 18.2 - 18.4, 18.7 1E: 19.2 - 19.4 Entropy and Spontaneity Changes in Entropy	November 7 2E: 18.5, 18.6 1E: 19.5, 19.6 Entropy of Surroundings Gibbs Free Energy
14	November 12 2E: 18.8 - 18.10 1E: 19.7 - 19.9 ΔG for Nonstandard Cond. Calculating K from ΔG	November 14 2E: 19.2 1E: 20.2 Identifying and Balancing Redox Reactions
15	November 19 2E: 19.3, 19.4 1E: 20.3, 20.4 Galvanic Cells Standard Electrode Potentials	November 21 2E: 19.5, 19.6 1E: 20.5, 20.6 E°_{cell} , ΔG° , and K E_{cell} for Nonstandard Conditions
16	November 26 NO CLASSES	November 28 NO CLASSES
17	December 3 2E: 19.7, 19.8 1E: 20.7, 20.8 Batteries and Electrolysis	December 5 Exam 4

Final Exam: See Date and Time Posted by the Registrar (Note that sometimes these dates change before the end of the semester. Keep up to date with the link below).
